DETAILED ACTION

Restriction Requirement

1. Please Note: In an effort to enhance communication with our customers and reduce processing time, Group 1640 is running a Fax Response Pilot for Written Restriction Requirements. A dedicated Fax machine is in place to receive your responses. The Fax number is 703-308-4315. A Fax cover sheet is attached to this Office Action for your convenience. We encourage your participation in this Pilot program. If you have any questions or suggestions please contact Paula Hutzell, Ph.D., Supervisory Patent Examiner at Paula.Hutzell@uspto.gov or 703-308-4310. Thank you in advance for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number to responses to Written Restrictions.

2. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-33, 47 and 48, drawn to a method of inhibiting or alleviating stenosis and disorders associated with stenosis, classified in Class 514, subclass 885.

II. Claims 34, 35, and 46, drawn to a kit for assessing stenosis comprising an anti-CD18 antibody, classified in Class 435, subclass 810.

III. Claims 36 and 37, drawn to a method of inhibiting or alleviating stenosis comprising removing leukocytes, classified in Class 424, subclass 140.1

IV. Claims 38-42, drawn to a method of inhibiting interaction of a CD18-expressing leukocyte with vascular endothelium, classified in Class 424, subclass 144.1.

V. Claims 43-45, drawn to a method of assessing the presence of leukocytes associated with stenosis, classified in Class 435, subclass 7.24.

3. Groups I-V are different methods. These method differs with respect to ingredients, method steps, and endpoints; therefore, each method is patentably distinct.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
